

City of Oak Creek Weekly COVID-19 Update

• July 25, 2022 •

This is our final weekly COVID-19 update. Change has been calculated from July 18 update.

COVID-19 Case Updates

| Total Positive Cases | Deaths |
|----------------------------------|------------------------------------|
| 10,939 (+85 from 7/18) | 91 (no change from 7/18) |

Source: Wisconsin Department of Health Services - Testing data represents the number of people tested by the diagnostic test that detects the virus in the nose or throat (and not a blood test that detects antibodies).

COVID-19 Community Burden

| Burden | 14-Day Positivity Rate | New positive cases over 14-day period: 7/6 - 7/19 |
|------------|------------------------|---|
| 402 | 20.2% | 147 |

COVID-19 Vaccine Distribution

| Percent of population with one dose of vaccine | Percent of population fully vaccinated |
|--|--|
| 74.7% (No change from 7/18) | 73.0% |
