**CITY OF OAK CREEK
MILWAUKEE COUNTY, WISCONSIN
\$8,900,000 Taxable General Obligation Refunding Bonds, Series 2018A**

Dated: April 3, 2018

Due: April 1, as shown below

The Taxable General Obligation Refunding Bonds, Series 2018A (the "Bonds") are being issued pursuant to Chapter 67 of the Wisconsin Statutes. The Bonds will be general obligations of the City of Oak Creek, Milwaukee County, Wisconsin (the "City") for which its full faith, credit and resources are pledged. The Bonds are being issued for the public purpose of refunding certain outstanding obligations of the City, to wit: the Taxable General Obligation Promissory Notes, Series 2015B, dated May 19, 2015 (the "2015B Notes") and paying related costs of financing including capitalized interest. (See "THE BONDS – Purpose" herein.)

The Bonds will mature April 1, as follows:

The Bonds will be issued as fully registered obligations without coupons and, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"). DTC will act as securities depository of the Bonds. Individual purchases may be made in book entry form only, in the principal amount of \$5,000 and integral multiples thereof. Purchasers will not receive certificates representing their interest in the Bonds purchased. Associated Trust Company, National Association, Green Bay, Wisconsin, will act as registrar and fiscal agent for the Bonds.

Principal of the Bonds, payable annually each April 1, commencing April 1, 2019 through 2032, and interest, payable each April 1 and October 1, commencing April 1, 2019, will be paid to DTC, which will in turn remit such principal and interest payments to its participants for subsequent disbursement to the beneficial owners of the Bonds as described herein.

The Bonds maturing on April 1, 2029 and thereafter shall be subject to redemption prior to maturity, at the option of the City, on April 1, 2028 or on any date thereafter. Said Bonds are redeemable as a whole or in part, and if in part, from maturities selected by the City and within each maturity by lot, at the principal amount thereof, plus accrued interest to the date of redemption.

The Bonds are offered when, as and if issued, subject to the receipt of the approving opinion of Quarles & Brady LLP, Milwaukee, Wisconsin, Bond Counsel. Quarles & Brady LLP will also serve as Disclosure Counsel for the Bonds. The Bonds will be available for delivery on or about April 3, 2018, through the facilities of DTC in New York, New York.

OFFICIAL STATEMENT
CITY OF OAK CREEK
MILWAUKEE COUNTY, WISCONSIN
\$8,900,000 Taxable General Obligation Refunding Bonds, Series 2018A

INTRODUCTION

The purpose of this Official Statement, which includes the cover page and appendices hereto, is to provide certain information in connection with the issuance of \$8,900,000 Taxable General Obligation Refunding Bonds, Series 2018A (the "Bonds") of the City of Oak Creek, Wisconsin (the "City").

This Official Statement speaks only as of its date, and the information contained herein is subject to change.

The information contained in this Official Statement is based upon material provided by the City or obtained from other sources and is believed to be reliable, but is not guaranteed as to accuracy or completeness.

All references to material included in this Official Statement not purporting to be quoted in full are only summaries of certain provisions thereof and do not purport to summarize or describe all the provisions thereof. Reference is made to such instruments, documents and other materials for the complete provisions thereof, copies of which will be furnished upon request.

Information, including the City's prior years' financial statements, is available upon request and upon payment to the City of a charge for any copying, mailing and handling if required, from Catherine Roeske, City Clerk, City of Oak Creek, 8040 S. 6th Street, Oak Creek, Wisconsin, 53154, telephone (414) 766-7000, croeske@oakcreekwi.org; or from Hutchinson, Shockey, Erley & Co. (the "Underwriter") at (414) 298-9898.

THE BONDS

Purpose

The Bonds are being issued for the public purpose of refunding certain outstanding obligations of the City, to wit: the Taxable General Obligation Promissory Notes, Series 2015B, dated May 19, 2015 (the "2015B Notes") and paying related costs of financing including capitalized interest.

Authority for Issuance

The Bonds are being issued pursuant to Chapter 67, Wisconsin Statutes, and a Resolution Authorizing the Issuance and Sale of \$8,900,000 Taxable General Obligation Refunding Bonds, Series 2018A (the "Resolution") adopted by the Common Council on March 20, 2018.

Description

The Bonds are dated April 3, 2018 and will bear interest from their dated date to their respective maturities. Principal of the Bonds will be payable annually each April 1, commencing April 1, 2019 through 2032. Interest will be payable each April 1 and October 1, commencing April 1, 2019.

The 2015B Notes were issued for public purposes, including paying project costs of Tax Incremental District No. 11 of the City. Proceeds of the Bonds will be used to pay the principal of the 2015B Notes at maturity on May 1, 2018. The interest due on May 1, 2018 will be paid by the City from previously levied taxes.

Sources of Payment for the Bonds

The City is authorized and required by law to levy on all property taxable by the City such *ad valorem* taxes, without limitation as to rate or amount, as may be necessary to pay the Bonds and the interest thereon.

Security for the Bonds

As security for the Bonds, the City pledges its full faith, credit and resources and there will be levied on all of the taxable property in the City a direct, annual irrevocable tax in an amount and at times sufficient to pay the principal of and interest on the Bonds. The tax will be levied under the Resolution for collection in each of the years 2019 through 2032 or monies to pay debt service will otherwise be appropriated.

The Resolution provides that the tax will be, from year to year, carried onto the tax rolls of the City and collected as other taxes are collected and that the City shall not repeal such levy or obstruct the collection of the tax. Provision is made for reducing the amount of tax carried onto the tax rolls by the amount of any surplus money in the debt service account for the Bonds.

Redemption Provisions

The Bonds maturing on April 1, 2029 and thereafter shall be subject to redemption prior to maturity, at the option of the City, on April 1, 2028 or on any date thereafter. Said Bonds are redeemable as a whole or in part, and if in part, from maturities selected by the City and within each maturity by lot, at the principal amount thereof, plus accrued interest to the date of redemption. If less than all of the Bonds are to be redeemed, selection of the Bonds to be so redeemed shall be by lot conducted by DTC in accordance with its rules and practices. (See "BOOK-ENTRY-ONLY SYSTEM" herein.)

Notice of Redemption

Notice of redemption shall be given by facsimile transmission, certified or registered mail, overnight express delivery, electronic transmission, or in any other manner required by DTC, to DTC, or its nominee as the registered owner of the Bonds. Such notice shall be sent not less than 30 days nor more than 60 days prior to the date fixed for redemption. Except as set forth in any undertaking by the City to provide continuing disclosure, the City will not be responsible for mailing notices of redemption to anyone other than DTC or its nominee.

THE RESOLUTION

The Resolution was adopted by the Common Council pursuant to the procedures prescribed by State Statutes. Reference is made to the Resolution for a complete recital of its terms.

The Resolution authorizes the issuance of and the sale of the Bonds to the Underwriter. The Resolution establishes the form and terms of the Bonds, including the dating, maturity schedule, interest payment dates and redemption provisions, as shown in this Official Statement, and approves the interest rates to be borne by the Bonds. Pursuant to the Resolution, the City pledges its full faith, credit and resources and there will be levied on all of the taxable property in the City a direct, annual irrevocable tax in an amount and at times sufficient to pay the principal of and interest on the Bonds. The Resolution establishes, separate and distinct from all other funds of the City, a debt service fund with respect to payment of principal and interest on the Bonds.

BOOK-ENTRY-ONLY SYSTEM

The following information has been furnished by The Depository Trust Company for use in this Official Statement. Neither the Issuer nor the Underwriter takes any responsibility for the accuracy or completeness of such information or as to the absence of material adverse changes in such information subsequent to the date of this Official Statement.

1. The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

2. DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“*Direct Participants*”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“*Indirect Participants*”). DTC has a Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

3. Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“*Beneficial Owner*”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

4. To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them.

6. Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC’s practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC’s MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions, and dividend payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants’ accounts upon DTC’s receipt of funds and corresponding detail information from the City or Agent on payable date in accordance with their respective holdings shown on DTC’s records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such Participant and not of DTC, Agent, or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an

authorized representative of DTC) is the responsibility of the City or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

9. A Beneficial Owner shall give notice to elect to have its Bonds purchased or tendered, through its Participant, to Agent, and shall effect delivery of such Bonds by causing the Direct Participant to transfer the Participant's interest in the Bonds, on DTC's records, to Agent. The requirement for physical delivery of Bonds in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Bonds are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Bonds to Agent's DTC account.

10. DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the City or Registrar. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

11. The City may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

12. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but Issuer takes no responsibility for the accuracy thereof.

Registrar and Fiscal Agent

Associated Trust Company, National Association, Green Bay, Wisconsin will act as the registrar and fiscal agent for the Bonds.

THE CITY

Introduction

The City encompasses an area of 28 square miles in Milwaukee County (the "County") in southeastern Wisconsin. The City is adjacent to the City of Milwaukee and 85 miles north of Chicago.

The City's 2017 population estimate is 35,560. The City has 264 full-time and approximately 97 part-time employees.

Transportation

The City is located on Interstate Highway 94, U.S. Highway 41, and State Highways, 32, 38 and 100. The City is also served by passenger and freight railroads and General Mitchell International Airport in the City of Milwaukee.

Common Council

The legislative body of the City is the Common Council, which consists of six alderpersons elected by district for overlapping two-year terms. The Mayor is elected separately for a three-year term, which current term will expire in April 2018.

Administrative Organization

The policies of the City are set by the six-member Council and the Mayor. The Mayor only votes in the case of a tie or when he wishes to exercise his veto power.

The City Administrator has the responsibility of administering the day-to-day operations of the City and executing the policy decisions of the Council.

The City Administrator is also responsible for the financial operations of the City and has responsibility for the formulation and enforcement of the budget for all departments.

Services

The City provides a full range of municipal services including police and fire protection, parks, public works operations, building inspection and zoning control, water and sewer utilities, and general administrative services.

Public Safety

The City's police department has 60 police officers, 22 full-time and 10 part-time employees. The fire department has 52 firefighters of which 37 are paramedics. All firefighters are required to be EMTs. In addition, the department has one full-time employee and one part-time employee.

The City's municipal court has two full-time employees and one part-time employee. The judge is a part-time elected position.

Employee Relations and Collective Bargaining

The following three bargaining units represent the respective number of City employees:

<u>Union/Association</u>	<u>Contract Expires</u>	<u>Number of Members</u>
Oak Creek Professional Police Officers' Association	12/31/20	45
International Association of Firefighters, Local 1848 AFL-CIO	12/31/17 ⁽¹⁾	43
Labor Association of Wisconsin (LAW)	9/01/18	44

⁽¹⁾ A new contract is currently being negotiated.

The City characterizes relations between the City and the bargaining units as good.

All eligible City personnel are covered by the Municipal Employment Relations Act (MERA) of the Wisconsin Statutes. Pursuant to that law, employees have limited rights to organize and collectively bargain with the municipal employers. MERA was amended by 2011 Wisconsin Act 10 (the "Act") and by 2011 Wisconsin Act 32, which altered the collective bargaining rights of public employees in Wisconsin.

As a result of the 2011 amendments to MERA, the City is prohibited from bargaining collectively with municipal employees, other than public safety or transit employees, with respect to any factor or condition of employment except total base wages. Even then, the City is limited to increasing total base wages beyond any increase in the consumer price index since 180 days before the expiration of the previous collective bargaining agreement (unless City were to seek approval for a higher increase through a referendum). Ultimately, the City can unilaterally implement the wages for a collective bargaining unit.

Under the changes to MERA, impasse resolution procedures were removed from the law for municipal employees of the type employed by the City, including binding interest arbitration. Strikes by any municipal employee or labor organization are expressly prohibited. As a practical matter, it is anticipated that strikes will be rare. Furthermore, if strikes do occur, they may be enjoined by the courts. Additionally, because the only legal subject of bargaining is the base wage rates, all bargaining over items such as just cause, benefits, and terms of conditions of employment are prohibited and cannot be included in a collective bargaining agreement. Impasse resolution for public safety employees and transit employees is subject to final and binding arbitration procedures, which do not include a right to strike. Interest arbitration is available for transit employees if certain conditions are met.

Demographic Information

Population

The population trends for the City, County and State are shown in the table below. The City's 2010 Census population is 34,451.

Tax Levies and Collections

Wisconsin cities, villages and towns are charged with the responsibility of assessing taxable property and collecting taxes, and making distribution to counties, school districts and other public bodies. Property of manufacturing establishments and utilities is assessed by the State Department of Revenue. All assessments are made as of January 1.

Real estate and personal property taxes are levied in December by the Common Council in conjunction with the adoption of the annual budget for the ensuing fiscal year beginning January 1. Levies are based on assessed property values certified on January 1 of the prior year and become a lien on the property at the beginning of the fiscal year. Real estate taxes are payable in full by January 31, or in three installments on January 31, March 31, and May 31. Personal property taxes must be paid in full by January 31. The City Treasurer is responsible for collection of taxes for all taxing purposes on properties within the City through May. On January 20 and February 20 and on the 20th of each month following a month in which an installment payment is due, settlements are made with all taxing entities. On or before August 20, the County pays the City in full for all outstanding real estate taxes due, and assumes responsibility for remaining balances. The City retains responsibility for collection of personal property taxes.

City tax levies (within the Milwaukee Metropolitan Sewerage District) for the current year and the past four calendar years are as follows:

<u>Year of Levy/Collection</u>	<u>City Tax Levies</u>	<u>Annual City Levy Rate per \$1,000 of Assessed Value</u>
2017/18	\$ 20,261,131	\$ 6.41
2016/17	19,878,080	6.60
2015/16	19,566,773	6.64
2014/15	19,329,408	6.76
2013/14	19,201,557	6.41

The City experiences no real estate tax delinquencies since Milwaukee County is required by State Statute to settle in full with underlying taxing districts no later than August 20 of each year.

The City has no outstanding short-term debt.

Legal Debt Limit

The City has the power to incur indebtedness for City purposes specified by statute (Article 11 Section 3 of the Wisconsin Constitution and Chapter 67, Wisconsin Statutes) in an aggregate amount, not exceeding five percent of the equalized value of taxable property in the City, as last determined by the State of Wisconsin Department of Revenue. In general, such indebtedness may be in the form of bonds and promissory notes for various public purposes.

The City's unused borrowing capacity is as follows:

Equalized Value of Taxable Property in the City for 2017		\$ 3,318,333,100
G.O. Debt Outstanding as of April 3, 2018:		
Total Outstanding General Obligation Debt ¹	\$ 109,900,000	
Less: Refunded 2015B Notes	\$ 8,900,000	
Net General Obligation Debt Outstanding		\$ 101,000,000
Legal Debt Capacity (5% of Equalized Value)		\$ 165,916,655
Unused Margin of Indebtedness		\$ 64,916,655
Percent of Unused Margin of Indebtedness		39.13%

¹ Includes the Bonds.

No Default on City Indebtedness

The City has no record of default on any prior debt repayment obligations.

Future Financings

The City expects to refinance the \$10,500,000 Taxable G.O. Promissory Notes, Series 2015C and \$5,750,000 Taxable G.O. Promissory Notes, Series 2016A on or before their maturity dates of September 1, 2018 and December 1, 2018, respectively. The City presently does not anticipate issuing any general obligation debt within the next 12 months for new money purposes.

Annual Budgets

Annual budgets are prepared by department heads and forwarded to the Mayor, Common Council and Finance Committee, who develop a preliminary budget for submission to the Common Council. In late November of each year the Common Council, after conducting public hearings on the budget proposals at which time any resident or taxpayer of the City has an opportunity to be heard, adopts a final budget for the succeeding year and levies taxes for proposed budget purposes. The amounts of taxes so levied, the amounts of the various appropriations and the purposes for such appropriations stated in the final budget (after any alterations made pursuant to the public hearing) may not be changed unless authorized by a vote of two-thirds of the entire membership of the Common Council. Notice of any changes made in the foregoing manner must be published within 10 days thereafter. Failure to give such notice precludes any changes in the budget.

Financial Information

A copy of the City's audited financial statements for the fiscal year ended December 31, 2016, including the accompanying independent auditor's report, is included as Appendix A to this Official Statement. Potential purchasers should read such financial statements in their entirety for more complete information concerning the City's financial position. Such financial statements have been audited by Baker Tilly Virchow Krause, LLP, Milwaukee, Wisconsin (the "Auditor"), to the extent and for the periods indicated thereon. The City has not requested the Auditor to perform any additional examination, assessment or evaluation with respect to such financial statements since the date thereof, nor has the City requested that the Auditor consent to the use of such financial statements in this Official Statement. Although the inclusion of the financial statements in this Official Statement is not intended to demonstrate the fiscal condition of the City since the date of the financial statements, in connection with the issuance of the Bonds, the City represents that there has been no material adverse change in the financial position or results of operations of the City, nor has the City incurred any material liabilities, which would make such financial statements misleading.

Pension Plan

All eligible employees in the City are covered under the Wisconsin Retirement System ("WRS") established under Chapter 40 of the Wisconsin Statutes. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes ("Chapter 40"). The Department of Employee Trust Funds ("ETF") administers the WRS. Required contributions to the WRS are determined by the ETF Board pursuant to an annual actuarial valuation in accordance with Chapter 40 and the ETF's funding policies. The ETF Board has stated that its funding policy is to (i) ensure funds are adequate to pay benefits; (ii) maintain stable and predictable contribution rates for employers and employees; and (iii) maintain inter-generational equity to ensure the cost of the benefits is paid for by the generation that receives the benefits.

City employees are generally required to contribute half of the actuarially determined contributions, and the City generally may not pay the employees' required contribution. The total retirement plan contributions (including both the City's and the employees' contributions) for the fiscal year ended December 31, 2014 were \$2,922,051. During the fiscal year ended December 31, 2015 ("Fiscal Year 2015") and the fiscal year ended December 31, 2016 ("Fiscal Year 2016"), the City's portion of contributions to WRS (not including any employee contributions) totaled \$1,522,714 and \$1,484,844, respectively.

The City implemented Governmental Accounting Standards Board Statement No. 68 ("GASB 68") for Fiscal Year 2015.

GASB 68 requires calculation of a net pension liability for the pension plan. The net pension liability is calculated as the difference between the pension plan's total pension liability and the pension plan's fiduciary net position. The pension plan's total pension liability is the present value of the amounts needed to pay pension benefits earned by each participant in the pension plan based on the service provided as of the date of the actuarial valuation. In other words, it is a measure of the present value of benefits owed as of a particular date based on what has been earned only up to that date, without taking into account any benefits earned after that date. The pension plan's fiduciary net position is the market value of plan assets formally set aside in a trust and restricted to paying pension plan benefits. If the pension plan's total pension liability exceeds the pension plan's fiduciary net position, then a net pension liability results. If the pension plan's fiduciary net position exceeds the pension plan's total pension liability, then a net pension asset results.

As of December 31, 2015, the total pension liability of the WRS was calculated as \$90.1 billion and the fiduciary net position was calculated as \$88.5 billion, resulting in a net pension liability of \$1.6 billion.

Under GASB 68, each participating employer in a cost-sharing pension plan must report the employer's proportionate share of the net pension liability or net pension asset of the pension plan. Accordingly, for Fiscal Year 2016, the City reported a liability of \$2,563,490 for its proportionate share of the net pension liability of the WRS. The net pension liability was measured as of December 31, 2015 based on the City's share of contributions to the pension plan relative to the contributions of all participating employers. The City's proportion was 0.157755090% of the aggregate WRS net pension liability as of December 31, 2015.

The calculation of the total pension liability and fiduciary net position are subject to a number of actuarial assumptions, which may change in future actuarial valuations. Such changes may have a significant impact on the calculation of the net pension liability of the WRS, which may also cause the ETF Board to change the contribution requirements for employers and employees. For more detailed information regarding the WRS and such actuarial assumptions, see Note IV-A of the City's Financial Statements for the Year Ended December 31, 2016.

Other Post-Employment Benefits

The City provides "other post-employment benefits" ("OPEB") (i.e., post-employment benefits, other than pension benefits, owed to its employees and former employees) through a single-employer defined benefit plan to employees who have terminated their employment with the City and have satisfied specified eligibility standards. Membership in the plan consisted of 172 retirees receiving benefits and 251 active plan members as of January 1, 2016, the date of the latest actuarial valuation.

OPEB calculations are required to be updated every two years and prepared in accordance with Statement No. 45 of the Governmental Accounting Standards Board regarding retiree health and life insurance benefits, and related standards. An actuarial study was last completed for the City by Milliman, Inc. in March 2017 with an actuarial valuation date of January 1, 2016 (the "Actuarial Report").

The City is required to expense the estimated yearly cost of providing post-retirement benefits and such annual accrual expense is referred to as the "annual required contribution." As shown in the City's audited financial statements for Fiscal Year 2016, the annual required contribution for Fiscal Year 2016 was \$3,205,808. For Fiscal Year 2016, the contributions to the plan totaled \$1,978,000, which was 61.7% of the annual required contribution. The City's current funding practice is to make annual contributions to the plan in the amounts at least equal to the amount of benefits to be paid on a "pay-as-you-go" basis.

As shown in the Actuarial Report, as of January 1, 2016, the actuarial accrued liability for benefits was \$44,983,388 and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$44,983,388 and a funded ratio of actuarial value of assets to actuarial accrued liability of 0%.

See Note IV-D of the City's Audited Financial Statements for the Year Ended December 31, 2016 included in Appendix A for more detailed information.

LEGAL MATTERS

Pending Litigation

The City certifies that there is no pending litigation or threatened litigation, which would restrain or enjoin the issuance, sale, execution or delivery of the Bonds or in any way contest or affect the validity of the Bonds or of any proceedings of the City taken with respect to the issuance and sale of the Bonds.

Levy Limits

Section 66.0602 of the Wisconsin Statutes, imposes a limit on property tax levies by cities, villages, towns and counties. No city, village, town or county is permitted to increase its tax levy by a percentage that exceeds its valuation factor (which is defined as a percentage equal to the greater of the percentage change in the political subdivision's January 1 equalized value due to new construction less improvements removed or zero percent). The base amount in any year to which the levy limit applies is the actual levy for the immediately preceding year. This levy limitation is an overall limit, applying to levies for operations as well as for other purposes.

A political subdivision that did not levy its full allowable levy in the prior year can carry forward the difference between the allowable levy and the actual levy, up to a maximum of 1.5% of the prior year's actual levy. The use of the carry forward levy adjustment needs to be approved by a majority vote of the political subdivision's governing body (except in the case of towns) if the amount of carry forward levy adjustment is less than or equal to 0.5% and by a super majority vote of the political subdivision's governing body (three-quarters vote if the governing body is comprised of five or more members, two-thirds vote if the governing body is comprised of fewer than five members) (except in the case of towns) if the amount of the carry forward levy adjustment is greater than 0.5% up to the maximum increase of 1.5%. For towns, the use of the carry forward levy adjustment needs to be approved by a majority vote of the annual town meeting or special town meeting after the town board has adopted a resolution in favor of the adjustment by a majority vote if the amount of carry forward levy adjustment is less than or equal to 0.5% or by two-thirds vote or more if the amount of carry forward levy adjustment is greater than 0.5% up to the maximum of 1.5%.

Beginning with levies imposed in 2015, if a political subdivision does not make an adjustment in its levy as described in the above paragraph in the current year, the political subdivision may increase its levy by the aggregate amount of the differences between the political subdivision's valuation factor in the previous year and the actual percent increase in a political subdivision's levy attributable to the political subdivision's valuation factor in the previous year, for the five years before the current year, less any amount of such aggregate amount already claimed as an adjustment in any of the previous five years. The calculation of the aggregate amount available for such adjustment may not include any year before 2014, and the maximum adjustment allowed may not exceed 5%. The use of the adjustment described in this paragraph requires approval by a two-thirds vote of the political subdivision's governing body, and the adjustment may only be used if the political subdivision's level of outstanding general obligation debt in the current year is less than or equal to the political subdivision's level of outstanding general obligation debt in the previous year.

Special provisions are made with respect to property taxes levied to pay general obligation debt service. Those are described below. In addition, the statute provides for certain other exclusions from and adjustments to the tax levy limit. Among the items excluded from the limit are amounts levied for any revenue shortfall for debt service on a revenue bond issued under Section 66.0621. Among the adjustments permitted is an adjustment applicable when a tax increment district terminates, which allows an amount equal to the prior year's allowable levy multiplied by 50% of the political subdivision's percentage growth due to the district's termination.

With respect to general obligation debt service, the following provisions are made:

(a) If a political subdivision's levy for the payment of general obligation debt service, including debt service on debt issued or reissued to fund or refund outstanding obligations of the political subdivision and interest on outstanding obligations of the political subdivision, on debt originally issued before July 1, 2005, is less in the current year than in the previous year, the political subdivision is required to reduce its levy limit in the current year by the amount of the difference between the previous year's levy and the current year's levy.

(b) For obligations authorized before July 1, 2005, if the amount of debt service in the preceding year is less than the amount of debt service needed in the current year, the levy limit is increased by the difference between the two amounts. This adjustment is based on scheduled debt service rather than the amount actually levied for debt service (after taking into account offsetting revenues such as sales tax revenues, special assessments, utility revenues, tax increment revenues or surplus funds). Therefore, the levy limit could negatively impact political subdivisions that experience a reduction in offsetting revenues.

(c) The levy limits do not apply to property taxes levied to pay debt service on general obligation debt authorized on or after July 1, 2005.

The Bonds were authorized after July 1, 2005 and therefore the levy limits do not apply to taxes levied to pay debt service on the Bonds.

Legal Matters

Certain legal matters incident to the authorization and issuance of the Bonds are subject to the approval of Quarles & Brady LLP, Milwaukee, Wisconsin, Bond Counsel, whose approving legal opinion will be available at the time of the delivery of the Bonds. The proposed form of such opinion is attached hereto as Appendix B "Proposed Form of Legal Opinion for the Bonds."

Quarles & Brady LLP has also been retained by the City to serve as Disclosure Counsel to the City with respect to the Bonds. Although, as Disclosure Counsel to the City, Quarles & Brady LLP has assisted the City with certain disclosure matters, Quarles & Brady LLP has not undertaken to independently verify the accuracy, completeness or sufficiency of this Official Statement or other offering material relating to the Bonds and assumes no responsibility whatsoever nor shall have any liability to any other party for the statements or information contained or incorporated by reference in this Official Statement. Further, Quarles & Brady LLP makes no representation as to the suitability of the Bonds for any investor.

Taxability of Interest

Interest on the Bonds is included in gross income for present federal income tax purposes.

Interest on the Bonds is not exempt from present Wisconsin income or franchise taxes.

Bond Premium

To the extent that the initial offering price of the Bonds ("Premium Bonds") is more than the principal amount payable at maturity, the Premium Bonds will be considered to have "bond premium" equal to the difference between the issue price and the stated redemption price at maturity.

Any Premium Bond purchased in the initial offering at the issue price will have "amortizable bond premium" within the meaning of Section 171 of the Code. Owners of Premium Bonds, the interest on which is subject to tax, may make an election to amortize the bond premium and to offset the taxable interest income with the amortizable bond premium for the year. Any amortizable bond premium that reduces the amount of interest income also reduces the owner's adjusted tax basis in the Bond by a corresponding amount. The adjusted tax basis in a Premium Bond will be used to determine taxable gain or loss upon a disposition (for example, upon a sale, exchange, redemption, or payment at maturity) of such Premium Bond. If the election is made, it is effective for all Bonds acquired during that year and all future years unless the taxpayer receives permission from the IRS to revoke the election. Owners of Premium Bonds should consult with their tax advisors regarding the calculation and treatment of bond premium for federal income tax purposes, as well as the manner of making the election.

Owners of the Premium Bonds who do not purchase such Premium Bonds in the initial offering at the issue price should consult with their tax advisors regarding the tax consequences of owning the Premium Bonds.

Owners of Premium Bonds should consult with their tax advisors regarding the state and local tax consequences of owning such Premium Bonds.

MUNICIPAL BANKRUPTCY

Municipalities are prohibited from filing for bankruptcy under Chapter 11 (reorganization) or Chapter 7 (liquidation) of the U.S. Bankruptcy Code (11 U.S.C. §§ 101-1532) (the "Bankruptcy Code"). Instead, the Bankruptcy Code permits municipalities to file a petition under Chapter 9 of the Bankruptcy Code, but only if certain requirements are met. These requirements include that the municipality must be "specifically authorized" under State law to file for relief under Chapter 9. For these purposes, "State law" may include, without limitation, statutes of general applicability enacted by the State legislature, special legislation applicable to a particular municipality, and/or executive orders issued by an appropriate officer of the State's executive branch.

As of the date hereof, Wisconsin law contains no express authority for municipalities to file for bankruptcy relief under Chapter 9 of the Bankruptcy Code.

Nevertheless, there can be no assurance (a) that State law will not change in the future, while the Bonds are outstanding, in a way that would allow the City to file for bankruptcy relief under Chapter 9 of the Bankruptcy Code; or (b) even absent such a change in State law, that an executive order or other executive action could not effectively authorize the City to file for relief under Chapter 9. If, in the future, the City were to file a bankruptcy case under Chapter 9, the relevant bankruptcy court would need to consider whether the City could properly do so, which would involve questions regarding State law authority as well as other questions such as whether the City is a municipality for bankruptcy purposes. If the relevant bankruptcy court concluded that the City could properly file a bankruptcy case, and that determination was not reversed, vacated, or otherwise substantially altered on appeal, then the rights of holders of the Bonds could be modified in bankruptcy proceedings. Such modifications could be adverse to holders of the Bonds, and there could ultimately be no assurance that holders of the Bonds would be paid in full or in part on the Bonds. Further, under such circumstances, there could be no assurance that the Bonds would not be treated as general, unsecured debt by a bankruptcy court, meaning that claims of holders of the Bonds could be viewed as having no priority (a) over claims of other creditors of the City; (b) to any particular assets of the City, or (c) to revenues otherwise designated for payment to holders of the Bonds.

Moreover, if the City were determined not to be a "municipality" for the purposes of the Bankruptcy Code, no representations can be made regarding whether it would still be eligible for voluntary or involuntary relief under Chapters of the Bankruptcy Code other than Chapter 9 or under similar federal or state law or equitable proceeding regarding insolvency or providing for protection from creditors. In any such case, there can be no assurance that the consequences described above for the holders of the Bonds would not occur.

MISCELLANEOUS

Rating

The Bonds have been rated "Aa2" by Moody's Investors Service, Inc. ("Moody's").

Concurrently, Moody's maintains its "Aa2" rating on the City's previously issued long-term general obligation debt.

The rating reflects only the view of Moody's, and an explanation of the significance of such rating may be obtained therefrom. Generally, a rating agency bases its rating on the information and materials furnished to it and on investigations, studies and assumptions of its own. There is no assurance that the rating will remain in effect for any given period of time or that it will not be revised, either upward or downward, or withdrawn entirely, by Moody's if, in their judgment, circumstances so warrant. Any such downward revision or withdrawal of such rating may have an adverse effect on the market price of the Bonds.

Such rating is not to be construed as a recommendation of the rating agency to buy, sell or hold the Bonds, and the rating assigned by the rating agency should be evaluated independently. Except as may be required by the Undertaking described under the heading "Continuing Disclosure" neither the City nor the Underwriter undertake responsibility to bring to the attention of the owners of the Bonds any proposed change in or withdrawal of such rating or to oppose any such revision or withdrawal.

Continuing Disclosure

Undertaking to Provide Continuing Disclosure. In order to assist an Underwriter which will reoffer the Bonds in complying with SEC Rule 15c2-12 promulgated by the Securities and Exchange Commission, pursuant to the Securities Exchange Act of 1934 (the "Rule"), the City shall covenant pursuant to the Resolution adopted by the Common Council to enter into an undertaking (the "Undertaking") for the benefit of holders including beneficial holders of the Bonds to provide certain financial information and operating data relating to the City annually to the Municipal Securities Rulemaking Board (the "MSRB"), and to provide notices of the occurrence of certain events enumerated in the Rule electronically or in the manner otherwise prescribed by the MSRB to the MSRB. The details and terms of the Undertaking, as well as the information to be contained in the annual report or the notices of material events, are set forth in the Continuing Disclosure Certificate to be executed and delivered by the City at the time the Bonds are delivered. Such Certificate will be in substantially the form attached hereto as Appendix C. A failure by the City to comply with the Undertaking will not constitute an event of default on the Bonds (although holders will have the right to obtain specific performance of the obligations under the Undertaking). Nevertheless, such a failure must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

In the previous five years the City has not failed to comply in all material respects with any previous undertakings under the Rule.

The City will file its continuing disclosure information using the Electronic Municipal Market Access ("EMMA") system. Investors will be able to access continuing disclosure information filed with the MSRB at www.emma.msrb.org.

Underwriting

Pursuant to the Bond Purchase Agreement with the City, the Underwriter has agreed to purchase all of the Bonds, if any of the Bonds are purchased, upon the satisfaction of certain conditions set forth in the Bond Purchase Agreement. The Bond Purchase Agreement provides for the Bonds to be purchased at a price of \$8,945,000.00 plus accrued interest, if any, to the date of delivery. The Underwriter intends to reoffer the Bonds to the public at the initial public offering prices or yields as shown on the front cover of this Official Statement to produce a reoffering price of \$9,141,282.50. The Underwriter's compensation in connection with this issue is the difference between the reoffering price of the Bonds and the purchase price mentioned above from which the Underwriter will pay issuance expenses. The Bonds may be offered to certain dealers at prices lower than such public offering prices or yields and such public offering prices or yields may be changed from time to time by the Underwriter. The Underwriter reserves the right to join with dealers and other underwriters in offering the Bonds to the public.

CERTIFICATE CONCERNING OFFICIAL STATEMENT

Concurrently with the delivery of the Bonds, the Mayor and City Clerk will deliver to the purchaser of the Bonds, a certificate stating that, to the best of their knowledge, this Official Statement did not as of its date and as of the sale date and does not, as of the date of delivery of the Bonds, contain an untrue statement of a material fact or omit to state a material fact required to be included therein for the purpose for which this Official Statement is to be used or necessary to make the statements therein, in the light of the circumstances under which they were made not misleading.

INDEPENDENT AUDITORS' REPORT

To the City Council
City of Oak Creek
Oak Creek, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oak Creek, Wisconsin, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City of Oak Creek's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to the City of Oak Creek's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the City of Oak Creek's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the City Council
City of Oak Creek

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Oak Creek, Wisconsin, as of December 31, 2016 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Oak Creek's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

CITY OF OAK CREEK
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)
As of and For the Year Ended December 31, 2016

As management of the City of Oak Creek (the City), we offer readers of the City of Oak Creek's financial statements this narrative overview and analysis of the financial activities of the City of Oak Creek for the fiscal year ended December 31, 2016. This discussion and analysis is designed to assist the reader in focusing on significant financial issues, provide an overview of the City's financial activity, identify changes in the City's financial position, identify material deviations from the approved budget, and identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the City's financial statements following this section.

FINANCIAL HIGHLIGHTS

When revenues exceed expenses, the result is an increase in net position. When expenses exceed revenues, the result is a decrease in net position. You can think of this relationship between revenues and expenses as the City's operating results and the net position, as measured in the Statement of Net Position, as one way to measure the City's financial health, or financial position. Over time, increases and decreases in the City's net position, as measured in the Statement of Activities, are one indicator of whether its financial health is improving or deteriorating. However, the City's goal is to provide services that improve the quality of life for our residents, not to generate profits as companies do. For this reason, you will need to consider many other non-financial factors, such as the condition of our roads and infrastructure, in assessing the overall health of our City.

Combined governmental and business-type activities net position decreased by 5% in 2016, to \$175.8 million. Of this amount, \$157.3 million represents the City's net investment in capital assets, while \$19.2 million was held for restricted purposes, and a deficit balance of \$0.7 million was unrestricted.

At the end of 2016, the City's governmental activities reported total net position of \$61.99 million, including a deficit balance in unrestricted net position of \$21.7 million and the City's business-type activities reported total net position of \$113.8 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Oak Creek's basic financial statements. The City of Oak Creek's basic financial statements are comprised of four components:

- *Management's discussion and analysis*
- *Basic financial statements*
 - Government-wide Financial Statements
 - Fund Financial Statements
 - Notes to the Financial Statements
- Required supplementary information
- Combining statements for non-major governmental funds

The basic financial statements include two kinds of statements presenting different views of the City:

Government-wide financial statements provide both long-term and short-term information about the City's overall financial status.

Fund financial statements focus on individual parts of city government and report the City's operations in more detail than the government-wide statements. The financial statements also include notes explaining some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information further explaining and supporting the information in the financial statements. In addition to these required elements, this financial report includes a section with combining statements providing details about the City's non-major governmental funds. The non-major funds are added together and presented in single columns in the basic financial statements.

Government-wide Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Oak Creek's finances, in a manner similar to a private-sector business and are presented in two statements, the Statement of Net Position and the Statement of Activities, which can be found on pages 1 - 2 of this report.

Both government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Oak Creek include general government, public safety, health and human services, public works, leisure activities (recreation and library), and conservation and development. The business-type activities of the City of Oak Creek include the water and sewer utility. Fiduciary activities, such as tax collection, are not included in the government-wide statements since these assets are not available to fund City programs.

The first of these government-wide statements is the Statement of Net Position. This is the citywide statement of position presenting information including all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City should extend to other non-financial factors such as the diversification of the tax base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the Statement of Activities, which reports how the City's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the Statement of Activities is to show the financial reliance of the City's distinct activities or functions on revenues.

Fund Financial Statements

The fund financial statements provide detailed information about the City's significant *funds*. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The City has three kinds of funds:

- ***Governmental funds*** – are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. The focus, however, is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financial requirements of governmental programs and the commitment of spendable resources for the near-term. Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.
- ***Proprietary funds*** – are reported in the fund financial statements and generally report services for which the City charges customers a fee. The City has two proprietary funds – water and sewer utilities. Proprietary fund statements offer short and long-term financial information about activities the City operates like a business. A second type of proprietary fund, the internal service fund, reports activities providing services to other City programs.
- ***Fiduciary funds*** – are reported in the fiduciary fund statements, but excluded from the government-wide reporting because these assets cannot be used to finance operations. The City is the trustee, or fiduciary, for collection of all property taxes within the City for all taxing jurisdictions, including the Oak Creek-Franklin Joint School District, Milwaukee County, State of Wisconsin, Milwaukee Area Technical College, and Milwaukee Metropolitan Sewerage District.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the City as a whole.

Net position. The City's combined net position decreased by \$9.3 million from fiscal year 2015 to 2016, a change of less than 5%; this decrease was comprised of a government-activities decrease of \$11.7 million, and a business-type activities increase of \$2.4 million. The City's governmental activities and business-type activities have approximately 35% and 65%, respectively, of the combined net position.

Total net position of the City's governmental activities decreased to \$61.99 million, a decrease of 15.9% from 2015 net position. The City's net investment in capital assets represents 105.6% of the total. Restricted net position of \$18.2 million represents 29.4% of the total. Unrestricted net position deficit of \$21.7 million represents (-35.0%) of the total.

Total net position of the City's business-type activities increased by 2.2% to \$113.8 million, including unrestricted net position of \$18.9 million, representing 16.6% of the total. All government and business type activities are self-supporting entities; net position of one entity is not permanently used by other entities.

Governmental Activities

The City of Oak Creek received a total of \$44.1 million in governmental activities revenues in 2016, up \$0.5 million when compared to 2015 revenues. As Table 2 indicates, the largest revenue source is the property tax, which accounts for \$23.1 million, or 52.4% of all governmental revenues. Property tax revenue in 2016 was virtually flat when compared to 2015 levels. Any increase in tax revenue was due to increased values and revenues within the city's tax incremental districts. As of this writing, the Legislature of the State of Wisconsin has imposed a permanent levy freeze, with the exception of new growth.

The next largest category of revenues is intergovernmental revenue with \$6.7 million (15.1%), followed by investment income and miscellaneous revenues of \$5.1 million (11.4%), and public charges for service of \$4.9 million (11.1%). Operating grants and contributions account for \$2.5 million (5.9%), and capital grants and contributions of \$1.8 million (4.1%).

Total governmental activities expenses were \$57.5 million in 2016, which exceeded revenues by \$13.4 million. At \$17.9 million, public safety, including police, EMS, inspection and fire services, accounts for the largest share of City expenses at 31.2%. This is followed by public works with \$13.3 or 23.1%, and general government with \$9.5 million, representing 16.5%. Conservation and development group, at \$9.1 million, is next with 15.9%, leisure activities at \$3.2 million 5.5%, and health/social services with \$1.9 million (3.3%) complete the activities. Payment of interest and fiscal charges in the amount of \$2.6 million, accounts for 4.5% of total governmental activities expenses.

Business-type Activities

The City of Oak Creek received \$15.7 million in business-type activities revenue during 2016 from its water and sewer utilities. Charges for services are by far the largest revenue sources for these operations, representing \$14.8 million of non-capital contribution revenues. Capital grants and contributions received were \$0.9 million in 2016, with interest and miscellaneous income accounting for the balance of revenues of \$0.2 million.

Net position of the City of Oak Creek's water and sewer utilities increased by \$2.4 million in 2016, which represents a 2.2% increase over the prior year's net position.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. In particular, the level of unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The basic governmental fund financial statements can be found on pages 3 - 6 of this report.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains twenty six individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, EMS Fund, Debt Service Fund, Debt Amortization Fund, Capital Improvement Fund, TIF 8 and TIF 11, all of which are considered to be major funds. Data from the other nineteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* at the end of this report.

At the end of 2016, the combined fund balances for the City's governmental funds was \$26.6 million. Of this total, \$0.5 million is nonspendable, \$18.7 million is restricted, \$3.5 million is committed and \$1.7 is assigned. The balance of unassigned governmental fund balances is \$2.2 million. These funds are allocated across the following areas:

Unassigned Fund Balances (deficit):	
General Fund	\$ 5.6
Debt Amortization Fund	(0.1)
TIF No. 8 Capital Project Fund	(1.4)
Capital Improvement Fund	(1.6)
Consolidated Dispatch Services Fund	(0.2)
Developer Agreement Fund	(0.1)
Total	<u>\$ 2.2</u>

General Fund: The general fund is the primary operating fund of the City.

- Total fund balance as of December 31, 2016 was \$7.7 million, of which \$1.7 million was assigned. Included in the assigned amount are tax equivalent dollars to be paid by the utility in 2017, and \$0.4 million is nonspendable which includes minor amounts for delinquent personal property taxes, non-current receivables and inventories.
- Unassigned fund balance increased from 2015 to \$5.6 million. The unassigned fund balance is now approximately 21.2% of the general fund 2015 actual revenues and 2015 state shared revenues; this is within the City's policy target range of 15-25% for the purposes of cash flow, stabilization, and emergency reserves.

Emergency Medical Services Fund: This special revenue fund is used to account for resources legally restricted to supporting the operations for the paramedic rescue program.

- Total fund balance as of December 31, 2016 increased to \$0.3 million.
- Total revenues for 2016 were \$4.9 million, which included \$3.6 million from taxes and \$1.2 million from public charges for services.
- Total expenditures for the year were \$4.7 million.

Capital Improvement Fund: The general capital improvement fund is used to account for major capital improvement projects relating to City-owned capital assets and capital equipment.

- Total fund balance at the end of the year was a deficit \$1.6 million, a decrease of \$2.5 million from 2015.
- Revenue sources provided \$1.2 million.
- Expenditures in this fund totaled \$6.9 million in 2016. The largest expenses included the Lake Vista Park, terrace and access to the lake, stabilizing the north bluff at the Lakefront, road construction projects for Ikea Way, Lake Vista Drive, and 5th Avenue extension. As well as bridge repair, City Hall/Library project costs and capital equipment purchases.

GENERAL FUND BUDGETARY HIGHLIGHTS

The general fund budget is adopted at the department level of expenditure.

The City ended the year with a favorable variance in general fund revenues and favorable variance in expenditures. Revenues and other financing sources were above budget projections by approximately \$400, while expenditures and other financing uses were under budget by \$808,000. The expenditure outcome relates mainly to retirements and unfilled positions which occurred throughout the year in the Police, Health and Engineering departments.

On the revenue side, conservative budgeting kept all categories quite close to budget. Year over year revenues were mostly stagnant, but the City continued to see increased construction activity resulting in \$317,000 in excess of the budgeted permit revenue. The City also saw higher insurance incentives as it continues to mitigate risk and reduce our claims resulting in a partial return of premium. The short-term revenue outlook is stable with the exception of planned growth in the next few years. The state approved legislation will continue to limit taxation to growth alone and short-term interest rates will remain near all-time lows.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of December 31, 2016, the City reported a combined investment in capital assets of \$157.3 million. Of this amount, \$65.5 million, or 41.6%, is attributable to governmental activities, with the assets related to the City's land, buildings, equipment and street network. Total accumulated depreciation for both governmental and business type activities was calculated at \$96.6 million.

In 2016, capital assets of governmental activities decreased by \$2.2 million. Capital assets of business type activities decreased by \$1.9 million.

Long-term Debt

At year-end, the governmental activities had \$97.3 million in general obligation bonds and promissory notes, an increase of \$7.2 million from last year. This was due to refinancing public improvements and infrastructure at the Drexel Town Square and Oak View Business Park; as well as developer incentives in TIF 11 and infrastructure improvements leading to Ikea. At the end of 2016, the business-type activities had a total of \$17.8 million in outstanding revenue bonds and general obligation debt. The City's general obligation bonds are rated Aa2 by Moody's Investors Service, which has also rated the City's short term notes with a MIG1 rating. Revenue bonds of the water & sewer utilities are rated Aa2.

State law limits the City to issuing general obligation bonds totaling no more than 5% of the City's equalized value. Based on the 2016 equalized value, this limit is \$155.4 million. The City currently has a combined total of \$97.3 million of general obligation notes and bonds outstanding, representing 62.6% of its legal debt capacity.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City of Oak Creek is located in southeastern Milwaukee County, and is one of only two municipalities in Milwaukee County with numerous tracts of vacant land. This location and land availability has contributed to the City's rapid growth and strong economic position. The local economy has picked up over the last few years with growth expected to continue in 2017 at Drexel Town Square and Oak View Business Park as well as other locations throughout the City. The majority of this growth is currently within TIF districts.

The City's population and building permit information is provided below:

The Oak Creek City Council adopted the 2017 budget in December of 2016, which authorized general fund expenditures of \$23.5 million, a 1.15% increase from 2016. The combined general fund and debt service property tax levy is \$13.7 million, an increase of \$115,000 from 2016 due to new construction. The mill rate for City services decreased by \$.04 in 2016, due to the slight increase in property values. The total tax levy has remained essentially at the same level since 2009, with any increase limited to the amount generated by new growth to the tax base and closure of TIF districts.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2016**

Net change in fund balances - total governmental funds	\$	380,920
--	----	---------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives with depreciation expense reported in the statement of activities.

Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements		9,735,393
Some items capitalized were not reported as capital outlay		(411,299)
Some amounts reported as capital outlay were not capitalized		(7,001,146)
Depreciation is reported in the government-wide statements		(4,407,157)
Net book value of disposed assets		(100,224)

Receivables not currently available are reported as unearned revenue in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.

Special assessments		(169,519)
Accounts receivable		(368,427)

Debt issued provides current financial resources to governmental funds, but issuing these obligations increases long-term liabilities in the statement of net position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Principal repaid		26,675,000
Debt proceeds		(33,900,000)

Governmental funds report debt premiums, discounts and issuance costs as other financing sources (uses) or expenditures. However, in the statement of net position, these are deferred and reported as other assets or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense.

Premium on issued debt		(500,000)
Amortization of debt premium on debt issued		252,482

Part of net revenue of activities in the internal service fund is reported with governmental activities

367,472

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Other postemployment benefits		(612,617)
Compensated absences		(28,005)
Accrued interest on debt		(118,705)
Net pension liability		(5,883,878)
Deferred outflows related to pensions		9,297,655
Deferred inflows related to pensions		(4,885,115)

CITY OF OAK CREEK

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Oak Creek, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the City of Oak Creek. The reporting entity for the city consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The city has not identified any organizations that meet this criteria.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In February 2015, the GASB issued statement No. 72 – *Fair Value Measurement and Application*. This statement addresses accounting and financial reporting issues related to fair value measurements. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This standard was implemented January 1, 2016.

In August 2015, the GASB issued statement No. 77 – *Tax Abatement Disclosures*. This statement requires disclosure of tax abatement information about 1) a reporting government's own tax abatement agreements and 2) agreements that are entered into by other governments that reduce the reporting government's tax revenues. This standard was implemented January 1, 2016.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The city does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements

Financial statements of the city are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the city or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental fund or enterprise fund that met the 10 percent test is at least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the city believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds and proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The city reports the following major governmental funds:

General Fund – accounts for the city's primary operating activities. It is used to account for and report all financial resources except those required to be accounted for in another fund.

Emergency Medical Services Fund – Special Revenue Fund – used to account for and report grants and local revenues legally restricted or committed to supporting expenditures for the paramedic rescue program.

Debt Service Fund – used to account for and report financial resources that are restricted, committed, or assigned to expenditures for the payment of general long-term debt principal, interest, and related costs for debt related public works projects.

Debt Amortization Fund – used to account for and report financial resources that are restricted, committed, or assigned to expenditures for the payment of general long-term debt principal, interest, and related costs.

Capital Improvement Capital Projects Fund – used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets for the capital improvement program.

TIF No. 8 Capital Projects Fund – used to account for and report financial resources that are restricted, committed, or assigned to expenditures outlined in the TID project plan.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the city's water and sewer utility and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the city considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the city is entitled the resources and the amounts are available. Amounts owed to the city which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Special assessments are recorded as revenues when they become measurable and available as current assets. Annual installments due in future years are reflected as receivables and unavailable revenues.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting and do not have a measurement focus.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer utilities are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the city considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of city funds is restricted by state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.
- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

The city has adopted an investment policy. That policy contains the following guidelines for allowable investments.

Custodial Credit Risk

In order to safeguard investments and deposits, the city shall require, at a minimum, that each approved public depository, submit to the city its annual financial statements. The Finance Committee shall annually evaluate such statements as to the financial soundness of the depository by May 1st of each year.

The city shall require, when investing in repurchase agreements, that collateral be pledged by the depository in an amount equal to or greater than the amount of the repurchase agreements the city has with such depository.

- a) The collateral shall be direct obligations of the United States, or of its agencies, if the payment of principal and interest is guaranteed by the federal government, or obligations of the State of Wisconsin, or collateral of commercial loans at one-hundred twenty-five percent, which are at all times current with regard to interest and principal.
- b) Evidence of such collateral shall be provided by the depository.

Credit Risk

Any security including commercial paper which matures or which may be tendered for purchase at the option of the holder within not more than seven years on the date which it is acquired, if that security has a rating which is the highest or second highest rating category assigned by Standard & Poor's Corporation, Moody's investor service or other similar nationally recognized rating agency, or if that security is senior to, or on a parity with a security of the same issuer which has such a rating.

Concentration of Credit Risk

Consideration shall be given to the total amount of existing city funds which are already in such depository and or the capacity of the depository to handle the size of the deposit or investment. A ceiling may be established for individual financial institutions at each annual evaluation.

Interest Rate Risk

Yield shall be the final determining factor of the investment decision.

Bids shall be required of all investments that are in excess of \$100,000 or have a maturity date of 30 days or longer. A minimum of three bids from the city's public depository list shall be acquired for time deposits.

Purchase obligations of the US Treasury and deposits into the Local Government Investment Pool and the BMO Investment Account shall not be subject to the bid process.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

Interest Rate Risk (cont.)

Securities shall not be sold prior to maturity with the following exceptions:

- a) A declining credit security could be sold early to minimize loss of principal.
- b) A security swap would improve the quality, yield or target duration in the portfolio.
- c) Liquidity needs of the portfolio require that the security be sold.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on methods and inputs as outlined in Note III.A. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2016, the fair value of the city's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

See Note III.A. for further information.

2. Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the city, taxes are collected for and remitted to the state and county governments as well as the local school district, technical college district and the Milwaukee Metropolitan Sewerage District. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying statement of assets and liabilities – agency fund.

2. Receivables (cont.)

Property tax calendar – 2016 tax roll:

Lien date and levy date	December 2016
Tax bills mailed	December 2016
Payment in full, or	January 31, 2017
First installment due (50%)	January 31, 2017
Second installment due (25%)	March 31, 2017
Third installment due (25%)	May 31, 2017
Personal property taxes in full	January 31, 2017
Tax sale – 2016 delinquent real estate taxes	October 2019

Accounts receivable have been shown net of an allowance for uncollectible accounts. Delinquent real estate taxes as of July 31 are paid in full by the county, which assumes the collection thereof. No provision for uncollectible accounts receivable has been made for the water and sewer utilities because they have the right by law to place delinquent bills on the tax roll, and other delinquent bills are generally not significant.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

In the governmental fund financial statements, advances to other funds are offset equally by a fund balance nonspendable account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation.

The city has received grant funds for CDBG housing loan programs to qualified individuals. The city records a loan receivable when the loan has been made and funds have been disbursed. The city is no longer disbursing these funds.

It is the city's policy to record unearned revenue for the net amount of the receivable balance. As loans are repaid, revenue is recognized. When new loans are made from the repayments, expenditures are recorded. Interest received from loan repayments is recognized as revenue when received in cash. Any unspent loan repayments at year end are presented as restricted fund balance in the fund financial statements.

3. Inventories and Prepaid Items

Governmental fund inventories, if material, are recorded at cost using the consumption method of accounting. Year-end inventory was not significant. Proprietary fund inventories are generally used for construction or for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average, and charged to construction and/or for operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

5. Capital Assets

Government –Wide Statements

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. Interest of \$27,832 was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

5. Capital Assets (cont.)

Government –Wide Statements (cont.)

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	30-50	Years
Land Improvements	20-30	Years
Machinery and Equipment	3-15	Years
Utility System	15-100	Years
Infrastructure	20-50	Years
Intangibles	2-15	Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from the advance refunding of debt. The difference between the cost of the securities placed in trust for future payments of the refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund financial statements.

7. Compensated Absences

Under terms of employment, employees are granted paid time off in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested paid time off is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements and are payable with expendable available resources.

Payments for paid time off will be made at rates in effect when the benefits are used. The liabilities at December 31, 2016 are determined on the basis of current salary rates and include salary related payments.

8. Long-Term Obligations/Conduit Debt

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

8. Long-Term Obligations/Conduit Debt (cont.)

The city has approved the issuance of industrial revenue bonds (IRB) for the benefit of private business enterprises. IRB's are secured by mortgages or revenue agreements on the associated projects, and do not constitute indebtedness of the city. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. The total amount of IRB's outstanding at the end of the year is made up of the following issue:

Name	Date	Original Principal Amount	Maturity	Principal Amount Outstanding at 12-31-16
Suzy's Cheesecakes	2/21/14	\$ 2,200,000	2/1/44	\$ 1,978,861

9. Pollution Remediation Obligations

As of December 31, 2016, the city was obligated to address the future pollution cleanup activities at its water treatment plant site due to federal and state laws and regulations. The city's obligation originated in the year 2016 to address the pollution remediation because the government unit has been determined to be the responsible party which compels the city to participate in remediation. Examples of expected future remediation activity costs include legal services, site investigation and required post-remediation monitoring costs. The amount reported as a pollution remediation obligation represents the current value of the expected cash flows to be paid for these activities. Any expected recoveries would be treated separately as a receivable when such reimbursements become measurable. As of December 31, 2016, the obligation was \$1,590,285 with no related receivable. The city will recognize these liabilities and related expenses as an operating expense in the water utility financial statements only when such costs become measurable. Because of this, the liability is subject to change as the city becomes aware of new information which may affect its estimate. Actual cost may be higher due to inflation, changes in technology or changes in regulations.

10. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

11. Equity Classifications

Government–Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

The net position section includes an adjustment for capital assets owned by the business-type activities column but financed by debt of the governmental activities column. The amount is a reduction of "net investment in capital assets," and an increase in "unrestricted" net position, shown only in the total column. A reconciliation of this adjustment is as follows:

	Governmental Activities	Business-type Activities	Adjustment	Total
Net Investment in capital assets	\$ 65,455,381	\$ 93,897,371	\$ (2,080,715)	\$ 157,272,037
Unrestricted (deficit)	(21,679,891)	18,891,373	2,080,715	(707,803)

When both restricted and unrestricted resources are available for use, it is the city's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable – Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted – Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.

11. Equity Classifications (cont.)

Fund Statements (cont.)

- c. Committed – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the city. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Council that originally created the commitment.
- d. Assigned – Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. The City Council has, by resolution, adopted a financial policy authorizing the City Administrator or Finance Director to assign amounts for a specific purpose. Assignments may take place after the end of the reporting period.
- e. Unassigned – Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The city considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the city would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The city has a formal minimum fund balance policy. That policy is to maintain a working capital fund of 15% to 25% of total general fund annual revenues plus the amount of state shared revenue during the previous year. In the previous year, general fund annual revenues were \$21,220,985 and the state shared revenue was \$5,022,090, for a total of \$26,243,075. At year end, amounts available for working capital and included in unassigned general fund balance totaled \$5,561,022, or 21.19%.

12. Pension

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms, investments are reported at fair value.

NOTE II – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

B. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2016, the following individual funds held a deficit balance:

Fund	Amount	Reason
Special Revenue Funds		
Consolidated Dispatch Services Fund	\$ 231,020	Excess of expenditures over revenues
Debt Service Fund		
Debt Service Fund	87,484	Excess of expenditures over revenues
TIF No. 4 Debt Service Fund	373	Excess of expenditures over revenues
Capital Project Fund		
Capital Improvement Fund	1,569,354	Excess of expenditures over revenues
TIF No. 8 Capital Projects Fund	1,393,413	Excess of expenditures over revenues
Developer Agreements Fund	59,658	Excess of expenditures over revenues

The Consolidated Dispatch Services Fund deficit is anticipated to be funded with future taxes levied and future charges for services. The Debt Service Fund and the Capital Improvement Fund deficits are anticipated to be funded with future taxes levied and future borrowings, respectively. TIF district deficits are anticipated to be funded with future incremental taxes levied over the life of the districts, which is 27 years for the districts created before October 1, 1995, and 23 years for districts created through September 30, 2004. Beginning October 1, 2004, the life of new districts varies by type of district (20-27 years) and may be extended in some cases. The Developer Agreements Fund deficit is anticipated to be funded with future developer receipts.

C. LIMITATIONS ON THE CITY'S TAX LEVY

Wisconsin law limits the city's future tax levies. Generally the city is limited to its prior tax levy dollar amount (excluding TIF Districts), increased by the greater of the percentage change in the city's equalized value due to new construction or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The city is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

A. DEPOSITS AND INVESTMENTS (cont.)

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has been considered in computing custodial credit risk

The city has an agreement with Tri City National Bank, Oak Creek where city deposits are collateralized by government securities owned by Tri City Capital Corp., a wholly owned investment subsidiary of Tri City National Bank. The investment portfolio is maintained with BMO Harris Bank, Milwaukee.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the city's deposits may not be returned to the city.

The city does not have any deposits exposed to custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the city will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The city does not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. As of December 31, 2016 the city's investments were rated as follows:

<u>Investment Type</u>	<u>Standard & Poor's</u>	<u>Fitch Ratings</u>	<u>Moody's</u>
Federal Home Loan Bank	AA	AAA	AAA
Federal National Mortgage Association	AA	AAA	AAA
Federal Home Loan Mortgage Corp.	AA	AAA	AAA

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

At December 31, 2016, the investment portfolio did not contain any single issuer in excess of 5% of total investments.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

As of December 31, 2016, the city's investments were as follows:

Investment Type	Fair Value	Maturity (In years)		
		Less than 1 year	1 - 10	> 10 years
U.S. treasuries	\$ 4,644,293	\$ 145,856	\$ 4,498,437	\$ -
U.S. agencies	125,199	-	125,199	-
Municipal bonds	251,068	251,068	-	-
Asset backed securities	8,250,608	233,126	2,087,667	5,929,815
Corporate bonds	5,271,932	668,121	4,603,811	-
Totals	\$ 18,543,100	\$ 1,298,171	\$ 11,315,114	\$ 5,929,815

The city categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The valuation method for recurring fair value measurements of investments is the quoted market prices approach.

The City's investments are categorized are as follows:

Investment Type	December 31, 2016			
	Level 1	Level 2	Level 3	Total
U.S. treasuries	\$ -	\$ 4,644,293	\$ -	\$ 4,644,293

B. RECEIVABLES (cont.)

Governmental funds report *unavailable* or *unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unearned	Unavailable
Property taxes and special charges receivable for subsequent year	\$ 22,918,791	\$ -

General Obligation Debt and Note Anticipation Notes

All governmental general obligation notes and bonds payable are backed by the full faith and credit of the city. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

In accordance with Wisconsin Statutes, total general obligation indebtedness of the city may not exceed five percent of the equalized value of taxable property within the city's jurisdiction. The debt limit as of December 31, 2016 was \$155,444,895. Total general obligation debt outstanding at year end was \$97,330,000.

Revenue Debt

The city has pledged future water and sewer revenues, net of specified operating expenses, to repay \$17,803,227 in revenue bonds. Proceeds from the bonds provided financing for capital improvements. The bonds are payable solely from revenues and are payable through May 1, 2034. The total principal and interest remaining to be paid on the bonds is \$22,209,505. Principal and interest paid for the current year and total customer net revenues were \$2,506,241 and \$6,018,661, respectively. Future principal and interest payments are expected to require 21% of net revenues.

Revenue debt payable at December 31, 2016 consists of the following:

NOTE IV – OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

General Information About the Pension Plan

Plan description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1,200 hours a year and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided. Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits. The WRS also provides death and disability benefits for employees.

NOTE IV – OTHER INFORMATION (continued)

A. EMPLOYEES' RETIREMENT SYSTEM (continued)

Post-Retirement adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

<u>Year</u>	<u>Core Fund Adjustment</u>	<u>Variable Fund Adjustment</u>
2006	0.8%	3%
2007	3.0	10
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,484,844 in contributions from the city.

Contribution rates as of December 31, 2016 are:

	<u>Employee</u>	<u>Employer</u>
General	6.6%	6.6%
Executives & Elected Officials	6.6%	6.6%
Protective with Social Security	6.6%	9.4%
Protective without Social Security	6.6%	13.2%

Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2016, the city reported a liability of \$2,563,490 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2014 rolled forward to December 31, 2015. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The city's proportion of the net pension liability was based on the city's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2015, the city's proportion was 0.157755090%, which was a decrease of 0.002714910% from its proportion measured as of December 31, 2014.

For the year ended December 31, 2016, the city recognized pension expense of \$3,087,612.

At December 31, 2016, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ 433,669	\$ 5,394,820
Changes in assumptions	1,793,529	-
Net differences between projected and actual earnings on pension plan investments	10,495,660	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	157,091	-
Employer contributions subsequent to the measurement date	1,495,955	-
Total	\$ 14,375,904	\$ 5,394,820

\$1,495,955 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year ended June 30:	Deferred Outflow of Resources	Deferred Inflow of Resources

A. EMPLOYEES' RETIREMENT SYSTEM (continued)

Actuarial assumptions. The total pension liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2014
Measurement Date of Net Pension Liability (Asset)	December 31, 2015
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.8%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*	2.1%

*No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2012 using experience from 2009 – 2011. The total pension liability for December 31, 2015 is based upon a roll-forward of the liability calculated from the December 31, 2014 actuarial valuation.

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Single Discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.56%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the city’s proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the city’s proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the city’s proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	1% Decrease to Discount Rate (6.20%)	Current Discount Rate (7.20%)	1% Increase To Discount Rate (8.20%)
City of Oak Creek’s proportionate share of the net pension liability (asset)	\$ 17,980,365	\$ 2,563,490	\$ (9,477,365)

Pension plan fiduciary net position. Detailed information about the pension plan’s fiduciary net position is available in separately issued financial statements available at <http://etf.wi.gov/publications/cafr.htm>.

At December 31, 2016, the City reported a payable to the pension plan of \$218,360 which represents contractually required contributions outstanding as of the end of the year.

B. RISK MANAGEMENT

The city is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. The city purchases commercial insurance to provide coverage for losses from torts; theft of, damage to, or destruction of assets; errors and omission and workers compensation. Employee health and dental care are accounted for and financed by the city in the health insurance internal service fund, which includes commercial insurance and self-funding. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

Self Insurance

For health claims, the uninsured risk of loss is \$100,000 deductible per individual and \$3,888,465 in the aggregate for a policy year. Claims in excess of those amounts are covered by specific reinsurance up to \$1,920,000 lifetime maximum reimbursement and aggregate reinsurance up to a \$1,000,000 lifetime maximum per individual. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

All funds in the city participate in the health and dental insurance internal service fund. Amounts payable to the health insurance fund are based on actuarial estimates of the amounts necessary to pay prior and current year claims and to establish a reserve for catastrophic losses. \$1,380,014 was designated for that reserve at year end, and is included in unrestricted net position of the internal service fund.

A liability for a claim is established if information indicates that it is probably that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable. Liabilities include an amount for claims that have been incurred but not yet reported. The city does not allocated overhead costs or other non-incremental costs to the claims liability.

Claims Liability

	Prior Year	Current Year
Unpaid claims – Beginning of Year	\$ 566,145	\$ 790,308
Current year claims and changes in estimates	4,790,276	4,018,908
Claim payments	(4,566,113)	(4,422,104)

B. RISK MANAGEMENT (cont.)

Wisconsin Municipal Insurance Commission (WMIC) Cities and Villages Mutual Insurance Company (CVMIC)

The WMIC is an intergovernmental cooperation commission created by contract under Section 66.30 of the Wisconsin Statutes. It was created in August, 1987 for the purpose of facilitating the organization, establishment and capitalization of the CVMIC, and has numerous cities and villages as members.

The CVMIC is a municipal mutual insurance company established on September 19, 1987 under Section 611.23 of the Wisconsin Statutes. The CVMIC provides liability insurance coverage to the cities and villages which make up the membership of the WMIC.

The CVMIC is self-insured up to a maximum of \$2,000,000 of each insurance risk. Losses paid by CVMIC plus administrative expenses will be recovered through premiums to the participating pool of municipalities.

Management of each organization consists of a board of directors or officers comprised of representatives elected by each of three classes of participants based on population. The city does not exercise any control over the activities of the agencies beyond the election of the officers and board.

Financial statements of WMIC and CVMIC are available from the WMIC / CVMIC administrative office.

The city pays an annual premium to CVMIC for its general liability insurance, which provides coverage up to \$5,000,000 per occurrence, less the city's retained liability. The city's retained liability is limited to \$50,000 per occurrence and an annual aggregate limit of \$200,000.

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

From time to time, the city is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the city's legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the city's financial position or results of operations.

The city has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

The city has active construction projects as of December 31, 2016. Work that has been completed on these projects but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures.

Tax Incremental Financing

The City of Oak Creek through its Tax Incremental Financing Districts (TID) 7 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payment to stimulate economic development. The abatements are authorized through the TID project plan and development agreements. The developers guaranteed a property taxable value of \$10,200,000. The developers also pay property taxes as they become due, and after constructing the building as stated in the development agreements, are entitled to a future incentive payment that directly correlate to the taxes paid. The incentives are calculated based on the increment derived specifically from the parcels as stated in the developer agreement. The developer receives payments back of 75% taxes paid, up to \$900,000 or as much as can be received by October 1, 2020. Aggregate incentive payments for the year ended December 31, 2016 were \$108,577.

The City of Oak Creek through its Tax Incremental Financing District 8 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payment to stimulate economic development. The abatements are authorized through the TID project plan and development agreement. The developer received \$650,000 upon confirmation of job creation and City being awarded a grant. The developer pays property taxes as they become due, and after constructing the building as stated in the development agreement, is entitled to a future incentive payment that directly correlate to the taxes paid. The incentives are calculated based on the increment derived specifically from the parcels as stated in the developer agreement. The developer receives payments back of 75% taxes paid for 8 years (2023). Aggregate incentive payments for the year ended December 31, 2016 were \$114,338.

The City of Oak Creek through its Tax Incremental Financing Districts (TID) 10 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payments to stimulate economic development. The abatements are authorized through the TID project plan and development agreements. The developers guaranteed a 15 year lease of space and job retainment. The developers are entitled to a future incentive payments that directly correlate to the taxes paid. The incentives are calculated based on the increment derived specifically from the parcels as stated in the developer agreement. The developer receives payments back of 75% taxes paid, up to \$1,800,000 or as much as can be received by October 1, 2023. Aggregate incentive payments for the year ended December 31, 2016 were \$0, first payment will be in 2017.

The City of Oak Creek through its Tax Incremental Financing District 11 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payment to stimulate economic development. The abatements are authorized through the TID project plan and development agreement. The developer received \$5,300,000 upon ownership of said property and entering into construction contracts and the construction process and agreed to meet a minimum assessed value varying each year from 2016-2032 and thereafter. In the event that the minimum assessed value is not met, the developer has a minimum valuation shortfall obligation payable for that year, in an amount equal to the difference between the real estate taxes that would have been due and payable had such real estate taxes been determined using the minimum assessed values, and the actual real estate taxes. Aggregate incentive payments for the year ended December 31, 2016 were \$0, (\$5,300,000 was paid in 2015).

Tax Incremental Financing (cont.)

The City of Oak Creek through its Tax Incremental Financing District 11 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payment to stimulate economic development. The abatements are authorized through the TID project plan and development agreement. The developer received \$2,500,000 upon beginning construction of a parking garage with 425 parking stalls. Once building permits are pulled for additional square footage of the medical facility (targeting 130,000 square foot) the developer will be paid \$65.80 per square foot up to an additional \$2,500,000. The City will in good faith effort work with the WEDC for a \$1,000,000 grant for the developer based on jobs, 425 parking stalls, and a 130,000 square foot facility. The developer agreed to meet a minimum assessed value varying each year from 2017-2032. In the event that the minimum assessed value is not met, the developer has a minimum valuation shortfall obligation payable for that year, in an amount equal to the difference between the real estate taxes that would have been due and payable had such real estate taxes been determined using the minimum assessed values, and the actual real estate taxes. Tax Incremental Financing (cont.)

The City of Oak Creek through its Tax Incremental Financing District 11 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payment to stimulate economic development. The abatements are authorized through the TID project plan and development agreement. The developer received \$1,319,949 upon ownership of said property and entering into construction contracts and the construction process and agreed to meet a minimum assessed value varying each year from 2015-2032. In the event that the minimum assessed value is not met, the developer has a minimum valuation shortfall obligation payable for that year, in an amount equal to the difference between the real estate taxes that would have been due and payable had such real estate taxes been determined using the minimum assessed values, and the actual real estate taxes. Aggregate incentive payments for the year ended December 31, 2016 were \$1,319,949.

The City of Oak Creek through its Tax Incremental Financing District 12 has entered into a tax abatement agreement with developers in the form of a tax incremental financing incentive payment to stimulate economic development. The abatements are authorized through the TID project plan and development agreement. The developers agree to invest roughly \$50,000,000 in economic development building a 300,000 square foot retail facility. The City and developer agree to City Financing not to exceed \$5,225,000 for infrastructure leading up to the developer's property. In each year, beginning 2017 and ending the last year of the district 2036, the City will receive a check from the developer for taxes on the property. The developer will receive the tax amount back less the annual bond payment for infrastructure, and less \$25,000 for administrative costs each year up to \$13,000,000. Aggregate incentive payments for the year ended December 31, 2016 were \$0, as the project has not yet started.

D. OTHER POSTEMPLOYMENT BENEFITS

The city administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides health insurance contributions for eligible retirees and their spouses through the city's group health insurance plan, which covers both active and retired members. Benefit provisions are established through collective bargaining agreements and state that eligible retirees and their spouses receive lifetime healthcare insurance at established contribution rates. General employees hired after January 1, 2015 are not eligible to receive post employment benefits. Police officers hired after January 1, 2015, are not eligible to receive post employment benefits. Instead, the city shall pay into a Voluntary Employee Beneficiary Association (VEBA) plan for the benefit of the employee, which can be used to pay for retiree health insurance premiums. Firefighters hired after January 1, 2016, are not eligible to receive post employment benefits. Instead, the city shall pay into section 457 plan for the benefit of the employee, which can be used to pay for retiree health insurance premiums. The Retiree Health Plan does not issue a publicly available financial report.

Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the city and the unions.

D. OTHER POSTEMPLOYMENT BENEFITS (cont.)

The city's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the city's annual OPEB cost for the year, the amount actually contributed to plan, and changes in the city's net OPEB obligation to the Retiree Health Plan:

Annual Required Contribution	\$ 3,205,808
Interest on net OPEB obligation	844,380
Adjustment to annual required contribution	<u>(1,394,160)</u>
Annual OPEB cost	2,656,028
Contributions made	<u>(1,978,000)</u>
Increase in net OPEB obligation (Liability)	678,028
Net OPEB Obligation (Liability) – Beginning of Year	<u>28,146,006</u>
Net OPEB Obligation (Liability) – End of Year	<u><u>\$ 28,824,034</u></u>

The city's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
12/31/2016	\$ 2,656,028	74.5%	\$ 28,824,034
12/31/2015	3,321,021	59.3%	28,146,006
12/31/2014	3,270,236	54.6%	26,795,985

NOTE IV – OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

The funded status of the plan as of January 1, 2016, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 44,983,388
Actuarial value of plan assets	<u>-</u>
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$ 44,983,388</u>
Funded ratio (actuarial value of plan assets/AAL)	0 %
Covered payroll (active plan members)	\$ 18,253,570
UAAL as percentage of covered payroll	246.4%

The projection of future benefit for an ongoing plan involves estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan is understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2016 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 3.00 percent investment rate of return and an annual healthcare cost trend rate of 6.20 percent initially and reduced by decrements to an ultimate rate of 4 percent after sixty-five years. Both rates include assumptions for annual rates of medical inflation. The actuarial value of Retiree Health Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a three-year period. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2016, was 30 years.

E. POWER GENERATING FACILITY MITIGATION REVENUE

The city entered into an agreement with Wisconsin Energy Corporation (WEC). WEC is expanding its electric generating facilities within the City of Oak Creek by creating three new units. WEC is expected to pay the following annual mitigation payments to the city 30 days after the commencement of construction:

Elm Road Unit 1	\$1,500,000
Elm Road Unit 2	750,000
Elm Road Unit 3	250,000

The payments are required annually unless the Public Service Commission of Wisconsin determines that these payments may not be included in the rent payments of the facilities lease or a new unit ceases operation after start-up and is decommissioned.

In 2016, the city received \$2,250,000.

F. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*
- Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*
- Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*
- Statement No. 80, *Blending Requirements for Certain Component Units – an Amendment of GASB Statement No. 14*
- Statement No. 81, *Irrevocable Split-Interest Agreements*
- Statement No. 82, *Pensions Issues – an Amendment of GASB Statements No. 67, No. 68, and No. 73*

When they become effective, application of these standards may restate portions of these financial statements.

G. SUBSEQUENT EVENTS

In June 2017, the City issued \$4.9 million and \$2.75 million of General Obligation Promissory Notes. The proceeds of these bonds will be used for future projects in TIF No. 11.

In July 2017, the City issued \$2.9 million of General Obligation Refunding Bonds, which was used to refund previously issued debt.

CITY OF OAK CREEK

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

As of and for the Year Ended December 31, 2016

BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I.C.

A budget has been adopted for all governmental fund types. The budgeted amounts presented include any amendments made. The city administrator may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds council action. There were no supplemental appropriations during the year.

Appropriations lapse at year end unless specifically carried over. Carryovers to the following year were \$0. Budgets are adopted at the function level of expenditure.

FUNDING PROGRESS DATA

The data presented in the Schedule of Funded Status was taken from the reports issued by the actuary.

WISCONSIN RETIREMENT SYSTEM

The amounts presented for each fiscal year were determined as of the calendar year-end that occurred within the fiscal year.

The city is required to present the last ten fiscal years data; however the standards allow the city to present as many years as are available until ten fiscal years are presented.

Changes in benefit terms. There were no changes of benefit terms for any participating employer in the Wisconsin Retirement System.

Changes in assumptions. There were no changes in the assumptions.

APPENDIX B
PROPOSED FORM OF LEGAL OPINION
FOR THE BONDS

Quarles & Brady LLP
411 East Wisconsin Avenue
Milwaukee, WI 53202

April 3, 2018

Re: City of Oak Creek, Wisconsin ("Issuer")
\$8,900,000 Taxable General Obligation Refunding Bonds, Series 2018A,
dated April 3, 2018 ("Bonds")

We have acted as bond counsel to the Issuer in connection with the issuance of the Bonds. In such capacity, we have examined such law and such certified proceedings, certifications, and other documents as we have deemed necessary to render this opinion.

Regarding questions of fact material to our opinion, we have relied on the certified proceedings and other certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

The Bonds are numbered from R-1 and upward; bear interest at the rates set forth below; and mature on April 1 of each year, in the years and principal amounts as follows:

<u>Year</u>	<u>Principal Amount</u>	<u>Interest Rate</u>
2019	\$100,000	4.00%
2020	300,000	4.00
2021	400,000	4.00
2022	500,000	4.00
2023	550,000	4.00
2024	600,000	4.00
2025	650,000	4.00
2026	700,000	4.00
2027	750,000	4.00
2028	800,000	4.00
2029	850,000	3.57
2030	850,000	3.67
2031	900,000	3.77
2032	950,000	3.82

Interest is payable semi-annually on April 1 and October 1 of each year commencing on April 1, 2019.

The Bonds maturing on April 1, 2029 and thereafter are subject to redemption prior to maturity, at the option of the Issuer, on April 1, 2028 or on any date thereafter. Said Bonds are redeemable as a whole or in part, and if in part, from maturities selected by the Issuer, and within each maturity by lot, at the principal amount thereof, plus accrued interest to the date of redemption.

We further certify that we have examined a sample of the Bonds and find the same to be in proper form.

Based upon and subject to the foregoing, it is our opinion under existing law that:

1. The Bonds have been duly authorized and executed by the Issuer and are valid and binding general obligations of the Issuer.
2. All the taxable property in the territory of the Issuer is subject to the levy of ad valorem taxes to pay principal of, and interest on, the Bonds, without limitation as to rate or amount. The Issuer is required by law to include in its annual tax levy the principal and interest coming due on the Bonds except to the extent that necessary funds have been irrevocably deposited into the debt service fund account established for the payment of the principal of and interest on the Bonds.
3. The interest on the Bonds is included for federal income tax purposes in the gross income of the owners of the Bonds.

We express no opinion regarding the accuracy, adequacy, or completeness of the Official Statement or any other offering material relating to the Bonds. Further, we express no opinion regarding tax consequences arising with respect to the Bonds other than as expressly set forth herein.

The rights of the owners of the Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and similar laws affecting creditors' rights and may be subject to the exercise of judicial discretion in accordance with general principles of equity, whether considered at law or in equity.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur.

APPENDIX C

**PROPOSED FORM OF
CONTINUING DISCLOSURE CERTIFICATE
FOR THE BONDS**

CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the "Disclosure Certificate") is executed and delivered by the City of Oak Creek, Milwaukee County, Wisconsin (the "Issuer") in connection with the issuance of \$8,900,000 Taxable General Obligation Refunding Bonds, Series 2018A, dated April 3, 2018 (the "Securities"). The Securities are being issued pursuant to a resolution adopted on March 20, 2018 (the "Resolution") and delivered to Hutchinson, Shockey, Erley & Co. (the "Purchaser") on the date hereof. Pursuant to the Resolution, the Issuer has covenanted and agreed to provide continuing disclosure of certain financial information and operating data and timely notices of the occurrence of certain events. In addition, the Issuer hereby specifically covenants and agrees as follows:

Section 1(a). Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the Issuer for the benefit of the holders of the Securities in order to assist the Participating Underwriters within the meaning of the Rule (defined herein) in complying with SEC Rule 15c2-12(b)(5). References in this Disclosure Certificate to holders of the Securities shall include the beneficial owners of the Securities. This Disclosure Certificate constitutes the written Undertaking required by the Rule.

Section 1(b). Filing Requirements. Any filing under this Disclosure Certificate must be made solely by transmitting such filing to the MSRB (defined herein) through the Electronic Municipal Market Access ("EMMA") System at www.emma.msrb.org in the format prescribed by the MSRB. All documents provided to the MSRB shall be accompanied by the identifying information prescribed by the MSRB.

Section 2. Definitions. In addition to the defined terms set forth in the Resolution, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"Annual Report" means any annual report provided by the Issuer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Audited Financial Statements" means the Issuer's annual financial statements, which are currently prepared in accordance with generally accepted accounting principles (GAAP) for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and which the Issuer intends to continue to prepare in substantially the same form.

"Final Official Statement" means the Official Statement dated March 20, 2018 delivered in connection with the Securities, which is available from the MSRB.

"Fiscal Year" means the fiscal year of the Issuer.

"Governing Body" means the Common Council of the Issuer or such other body as may hereafter be the chief legislative body of the Issuer.

"Issuer" means the City of Oak Creek, Milwaukee County, Wisconsin, which is the obligated person with respect to the Securities.

"Issuer Contact" means the City Clerk of the Issuer who can be contacted at 8040 S. 6th Street, Oak Creek, Wisconsin 53154, phone (414) 766-7000, fax (414) 766-7976.

"Listed Event" means any of the events listed in Section 5(a) of this Disclosure Certificate.

"MSRB" means the Municipal Securities Rulemaking Board.

"Participating Underwriter" means any of the original underwriter(s) of the Securities (including the Purchaser) required to comply with the Rule in connection with the offering of the Securities.

"Rule" means SEC Rule 15c2-12(b)(5) promulgated by the SEC under the Securities Exchange Act of 1934, as the same may be amended from time to time, and official interpretations thereof.

"SEC" means the Securities and Exchange Commission.

Section 3. Provision of Annual Report and Audited Financial Statements.

(a) The Issuer shall, not later than 270 days after the end of the Fiscal Year, commencing with the year ended December 31, 2017, provide the MSRB with an Annual Report filed in accordance with Section 1(b) of this Disclosure Certificate and which is consistent with the requirements of Section 4 of this Disclosure Certificate. The Annual Report may be submitted as a single document or as separate documents comprising a package, and may cross-reference other information as provided in Section 4 of this Disclosure Certificate; provided that the Audited Financial Statements of the Issuer may be submitted separately from the balance of the Annual Report and that, if Audited Financial Statements are not available within 270 days after the end of the Fiscal Year, unaudited financial information will be provided, and Audited Financial Statements will be submitted to the MSRB when and if available.

(b) If the Issuer is unable or fails to provide to the MSRB an Annual Report by the date required in subsection (a), the Issuer shall send in a timely manner a notice of that fact to the MSRB in the format prescribed by the MSRB, as described in Section 1(b) of this Disclosure Certificate.

Section 4. Content of Annual Report. The Issuer's Annual Report shall contain or incorporate by reference the Audited Financial Statements and updates of the following sections of the Final Official Statement to the extent such financial information and operating data are not included in the Audited Financial Statements:

1. CITY DEBT STRUCTURE - Total Outstanding General Obligation Debt Summary
2. CITY DEBT STRUCTURE - Total Outstanding Revenue Debt Summary
3. CITY DEBT STRUCTURE - Debt Ratios (including Equalized Value)

Any or all of the items listed above may be incorporated by reference from other documents, including official statements of debt issues of the Issuer or related public entities, which are available to the public on the MSRB's Internet website or filed with the SEC. The Issuer shall clearly identify each such other document so incorporated by reference.

Section 5. Reporting of Listed Events.

(a) This Section 5 shall govern the giving of notices of the occurrence of any of the following events with respect to the Securities:

1. Principal and interest payment delinquencies;
2. Non-payment related defaults, if material;
3. Unscheduled draws on debt service reserves reflecting financial difficulties;
4. Unscheduled draws on credit enhancements reflecting financial difficulties;
5. Substitution of credit or liquidity providers, or their failure to perform;
6. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Securities, or other material events affecting the tax status of the Securities;
7. Modification to rights of holders of the Securities, if material;
8. Securities calls, if material, and tender offers;
9. Defeasances;
10. Release, substitution or sale of property securing repayment of the Securities, if material;
11. Rating changes;
12. Bankruptcy, insolvency, receivership or similar event of the Issuer;

13. The consummation of a merger, consolidation, or acquisition involving the Issuer or the sale of all or substantially all of the assets of the Issuer, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; and
14. Appointment of a successor or additional trustee or the change of name of a trustee, if material.

For the purposes of the event identified in subsection (a)12. above, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the Issuer in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Issuer, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the Issuer.

(b) When a Listed Event occurs, the Issuer shall, in a timely manner not in excess of ten business days after the occurrence of the Listed Event, file a notice of such occurrence with the MSRB. Notwithstanding the foregoing, notice of Listed Events described in subsections (a) (8) and (9) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to holders of affected Securities pursuant to the Resolution.

(c) Unless otherwise required by law, the Issuer shall submit the information in the format prescribed by the MSRB, as described in Section 1(b) of this Disclosure Certificate.

Section 6. Termination of Reporting Obligation. The Issuer's obligations under the Resolution and this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption or payment in full of all the Securities.

Section 7. Issuer Contact; Agent. Information may be obtained from the Issuer Contact. Additionally, the Issuer may, from time to time, appoint or engage a dissemination agent to assist it in carrying out its obligations under the Resolution and this Disclosure Certificate, and may discharge any such agent, with or without appointing a successor dissemination agent.

Section 8. Amendment; Waiver. Notwithstanding any other provision of the Resolution or this Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, if the following conditions are met:

(a)(i) The amendment or waiver is made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the Issuer, or the type of business conducted; or

(ii) This Disclosure Certificate, as amended or waived, would have complied with the requirements of the Rule at the time of the primary offering, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(b) The amendment or waiver does not materially impair the interests of beneficial owners of the Securities, as determined and certified to the Issuer by an underwriter, financial advisor, bond counsel or trustee.

In the event this Disclosure Certificate is amended for any reason other than to cure any ambiguities, inconsistencies, or typographical errors that may be contained herein, the Issuer agrees the next Annual Report it submits after such amendment shall include an explanation of the reasons for the amendment and the impact of the change, if any, on the type of financial statements or operating data being provided.

If the amendment concerns the accounting principles to be followed in preparing financial statements, then the Issuer agrees that it will give an event notice and that the next Annual Report it submits after such amendment will include a comparison between financial statements or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Section 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any Annual Report or notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event.

Section 10. Default. (a) Except as described in the Final Official Statement, in the previous five years, the Issuer has not failed to comply in all material respects with any previous undertakings under the Rule to provide annual reports or notices of events.

(b) In the event of a failure of the Issuer to comply with any provision of this Disclosure Certificate any holder of the Securities may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Issuer to comply with its obligations under the Resolution and this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an event of default with respect to the Securities and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

Section 11. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Participating Underwriters and holders from time to time of the Securities, and shall create no rights in any other person or entity.

IN WITNESS WHEREOF, we have executed this Certificate in our official capacities effective the 3rd day of April, 2018.
